## FLYING MODEL ROCKET KIT #1292

### HOW TO USE THESE INSTRUCTIONS:

### READ ALL INSTRUCTIONS BEFORE STARTING WORK ON THIS MODEL

This rocket, incorporating basic model rocketry construction techniques, will help you in the development of your rocketry modeling skills.

Read each step first and visualize the procedure thoroughly in your mind before starting construction. Lay parts out on the table in front of

you. (Check inside tubes for any small parts.)

- D. Use exploded view to match all parts contained in kit.
- E. Collect all construction supplies that are not included in the kit.
- F. Fin marking guides, shock cord mounts and other patterns are printed in the

instructions and will be found on page 7 in the patterns section.

- G. Test fit parts before applying any glue.
- H. Sand parts as necessary for proper fit.
- I. The construction supplies required for each step are listed at the beginning of each step.
- J. Check off each step as you complete it.

### EXPLODED VIEW

### EXTREMELY IMPORTANT: THE EXPLODED VIEW IS FOR REFERENCE ONLY! DO NOT USE THIS DRAWING ALONE TO ASSEMBLE THIS MODEL.

The exploded view is only intended to assist you in locating the parts included in this kit. Refer back to this exploded view as you build your model step by step. This method will help you to put the parts into perspective as you progress through the construction.

### CONSTRUCTION SUPPLIES

In addition to the parts included in your kit, you will need these construction supplies. Each step shows which supplies will be required.

GLUE IS APPLIED TO SURFACES SHOWN IN RED.
